Sustainability

Competition

Our vision

Global manufacturing innovation is led by Europe.

Our mission

Bring together manufacturing actors across Europe to integrate innovation and education for an entrepreneurial and sustainable Europe.

From ramp-up
to growth

EIT Manufacturing leads
global manufacturing
innovation

Growth phase

Gain trust through excellence

5 years

Ramp-up phase

Addressing European challenges

2 years

Initial phase

Engaging committed partners

Unique approach: Innovation based on industry needs

- Public-private partnership
- A holistic, tested method
- Focus on solutions to high-value manufacturing challenges
- 65+ full members, 50+ activity partners: leading companies, universities and research organisations
- €400M budget until 2026

Four focus areas: The Flagships

Flexible production systems
for competitive manufacturing

Low environmental footprint
systems & circular economy
for green manufacturing

Digital & collaborative solutions
for innovative manufacturing
ecosystems

Human-machine co-working
for socially sustainable
manufacturing

Powerful partnership: 67 partners from 17 countries

As of April 2021

Partnership model

Members

- Formal accession process
- Annual membership fee
- Full voting right in the general assembly of the EIT Manufacturing association

Large enterprises, RTOs, universities

Activity partners

- Participation on activity basis
- Reduced membership fee; no financial obligations at the end of the activity
- No voting right in the general assembly

SME/Startups, Call participants

Network partners

- Discussion partner for further development
- Representation in EIT Manufacturing advisory councils
- No formal member of EIT Manufacturing association

Associations, incubators, politics

The strength of EIT Manufacturing

To ensure that innovations reach the market, industry has the right talent and entrepreneurs can thrive, EIT Manufacturing connects and integrates the areas of education, innovation and business creation and the Regional Innovation Scheme (RIS).

Goals by 2030: Green, innovative & the right skills

30% of material use is circular

60% sustainable production practices

Create **360** new solutions

€325M investment attracted by EIT ventures

50,000 people trained and up- or re-skilled

Create and support **1,000** startups

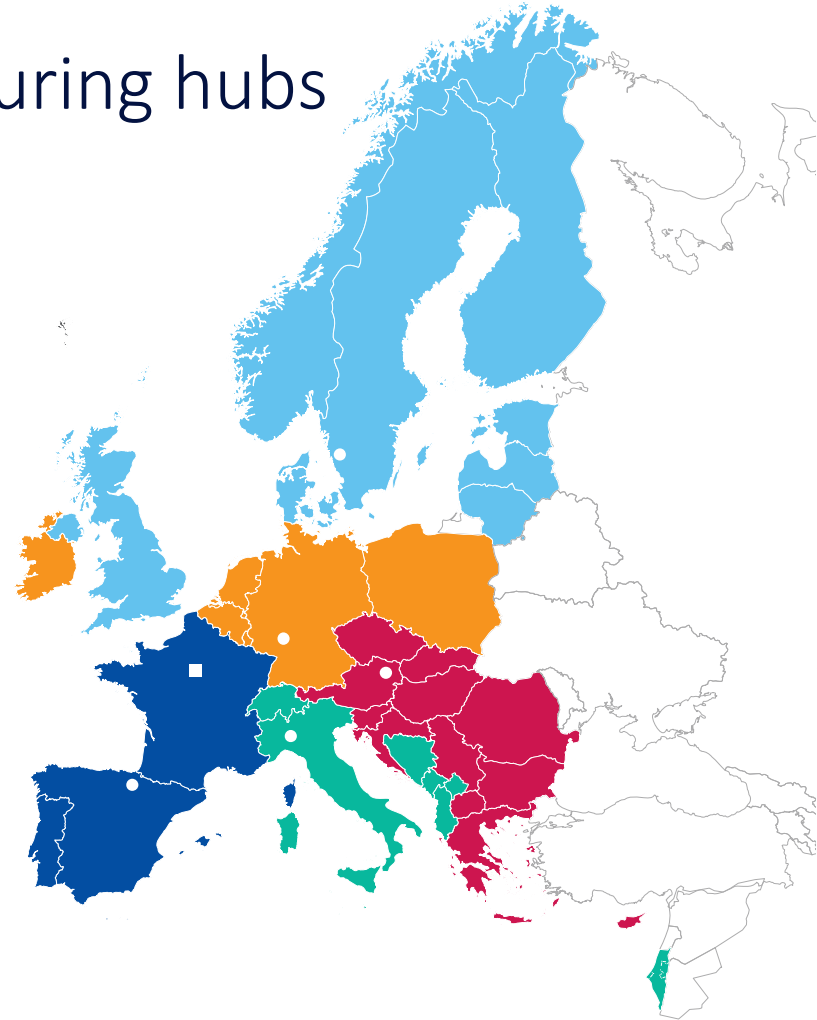

Locations: Linking key manufacturing hubs

Legal Entity **France**

Headquarters **Paris**

5 Co-location Centers (CLCs)

- **San Sebastian** Spain
- **Gothenburg** Sweden
- **Darmstadt** Germany
- **Milan** Italy
- **Vienna** Austria

CLC West:

A Competitive Region

- ✓ One of the most heavily industrialized regions of Europe
- ✓ High degree of diversity
- ✓ France: Trilateral cooperation agreement Industrie 4.0 to promote digitizing the manufacturing industry
- ✓ Spain and Portugal: Part of the EIT Regional Innovation Scheme (RIS)

- ✓  managed by INESC TEC in Portugal

Strong & Knowledgeable Community
