COMMUNITY!

MORE FUNDING OPPORTUNITIES!

About TARGET-X

TARGET-X is a project the European Commission co-funded from the HORIZON EUROPE Programme. It is coordinated by FRAUNHOFER Gesellschaft Zur Forderung Der Angewandten Forschung Ev with the participation of 14 Consortium Partners from 6 countries.

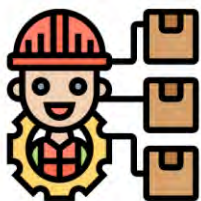

TARGET-X 's Vision is to strengthen important economic sectors in Europe by integrating 5G and 6G, accelerating the digital transformation.

Who are we looking for?

We are looking for:

- an individual entity (SME) or;
- micro-consortium composed of 2 SMEs

legally registered (established in the National Companies Register) prior to the launch of the TARGET-X 1st Open Call (9th of May, 2023)

MANUFACTURING

ENERGY

AUTOMOTIVE

CONSTRUCTION

Support to be offered:

- Funding support to (up to €60 000) approximately 50 entities in the 7-month Support Programme;
- Achieving TLR 7 during the Support Program, starting from TLR 3-4 (preferred);
- Self-sustainable business framework and new market opportunities;

NOTE! In the case of for-profit companies maximum grant amount is 70% of the eligible costs needed to execute the project.

ELIGIBILITY CRITERIA

The projects must be proposed by an individual legal entity or micro-consortium of 2 SMEs (consortium must be composed of one entity acting as **technology provider** and one entity acting as **end-user** or **both** entities acting as **end users**), legally registered (established in the National Companies Register) prior to the launch of the TARGET-X 1st Open Call (9th of May 2023).

The entities have to be established in any of the:

- The Member States of the European Union and its Overseas Countries and Territories or;
- Associated Countries to Horizon Europe.

! **REMEMBER!** The United Kingdom is ineligible!

SECTION 3.3 'GUIDE FOR APPLICANTS'

- Be on time and use our system
- English Language
- Every question deserves your attention
- European dimension
- Be exhaustive & precise
- Multiple submissions!
- Absence of conflict of interest
- It is your proposal
- Healthy finances and a clean sheet are a must
- Acceptance of the open-call rules
- Limit on the FSTP

SUPPORT PROGRAMME

All beneficiary will receive **fixed lump sum**.

The lump sum is a simplified method of settling expenses in projects financed with Horizon Europe funds.

It means that you are **not required to present strictly defined accounting documents to prove the costs incurred**.

However, you are obliged to demonstrate that the implementation of the project is in line with the milestones set for it. Simply speaking, it means that we will carefully assess your progress and the quality of your work during Interim Reviews, not your accountancy.

In any case, **the lump sum methodology does not release you from the obligation to collect documentation to confirm the costs under fiscal regulation**.

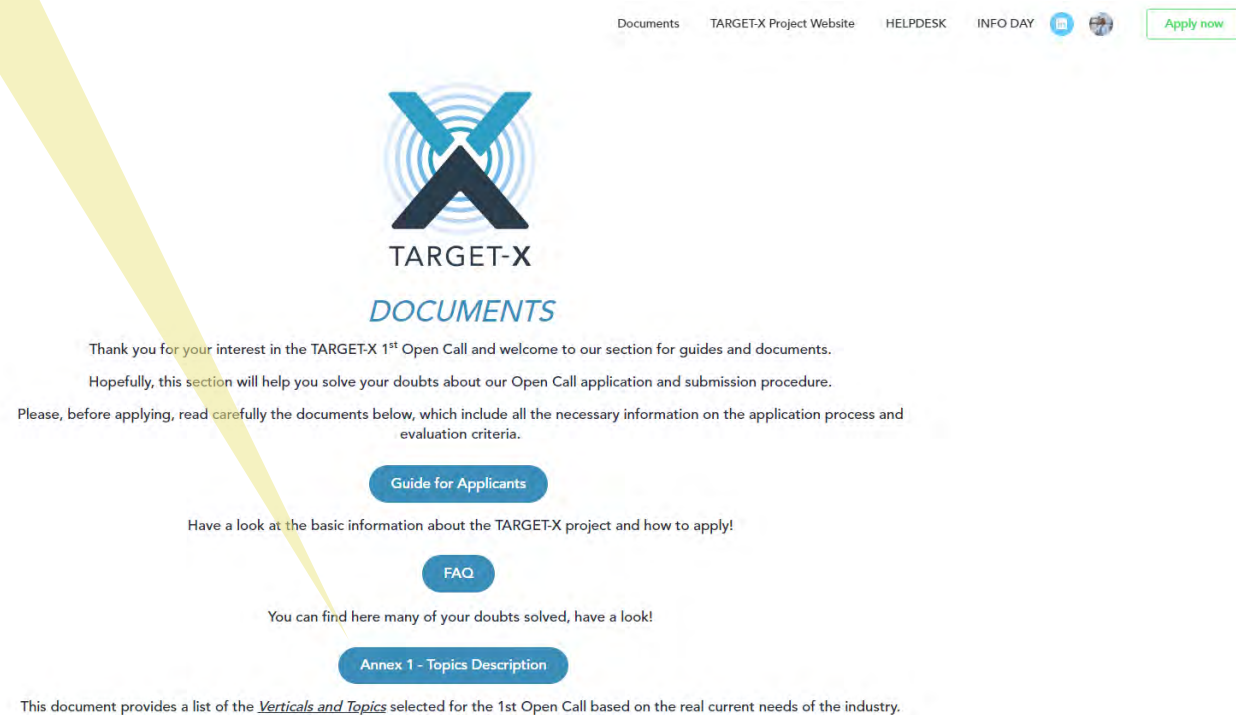

Payment Milestones	Deliverable	Delivery Date	Payment Milestone (instalments)
Stage 1	'Individual Mentoring Plan'	M1	Up to 5 000 EUR
Stage 2	Project development report	M3	Up to 35 000 EUR
Stage 3	Market uptake report	M7	Up to 20 000 EUR
TOTAL			UP TO 60 000 EUR

NOTE! In case of for-profit companies maximum grant amount is 70% of the eligible costs needed to execute the project.

EXAMPLE

METHODOLOGICAL ASSESSMENT FRAMEWORK

Title: 1_Technical and economical assessment of industrial 5G use cases

Summary	As part of the TARGET-X project, different 5G use cases from the verticals manufacturing, energy, construction, automotive will be conceived and implemented. To gain insight into these 5G use cases, a systematic approach is required, enabling the technical and economical assessment based on key performance indicators (KPI).
Scope	The selection of existing or definition of new KPI is necessary to provide the theoretical foundation of the methodological assessment framework. Furthermore, data modeling for the assessment is required to enable a data-driven approach.
Objectives	Selection of existing or derivation of new KPIs for the assessment of industrial 5G use cases. Building a data model for the technical and economical assessment of industrial 5G use cases.
Description of the ideal candidate	An ideal candidate is an SME focusing on the technology assessment of industrial use cases enabled by wireless communication, e.g., as part of a digital service portfolio.
