# Condiciones de admisibilidad

## Same general admissibility conditions

- Applications must be submitted before the call deadline, **electronically** via the Funding & Tenders Portal
- Applications must be **complete, readable, accessible and printable**, and include a **plan for the exploitation and dissemination of results**, unless provided otherwise in the specific call conditions.

## Proposal page limit

- RIAs and IAs type of actions: limit for a full application is **45 pages**
- CSAs: limit is **30 pages**
- First stage proposals: limit is **10 pages**
- Exceptions, if any, would be specified in the call text.
  - Business case and exploitation strategy: **+ 3 pages**
  - RIAs and IAs + Lump Sum = **50 pages limit**
  - CSAs + Lump Sum = **33 pages limit**

#### *Admissibility conditions*

The conditions are described in General Annex A. The following exceptions apply:

Applicants submitting a proposal under the **blind evaluation pilot** (see General Annex F) must not disclose their organisation names, acronyms, logos, nor names of personnel in Part B of their first stage application (see General Annex E).

# Blind evaluation pilot

- If indicated in the specific call conditions, first-stage proposals of two-stage submissions will be evaluated blindly and applicants may not disclose their identity in Part B of their proposal.

The diagram illustrates the submission process. It starts with the European Union flag, which leads to the 'Horizon Europe Programme' logo. This leads to the 'Standard Application Form (HE RIA, IA stage 1)'. On the form, there is a field labeled '... [insert call identifier] – [insert call name]' with a warning icon: '⚠ Fill in the title of your proposal below.' Below this is a red-bordered box containing the 'TITLE OF THE PROPOSAL' field. Inside this box is another warning icon: '⚠ This proposal is submitted to a call that is evaluated blindly. You must not disclose applicants' organisation names, acronyms, logos nor names of personnel in Part B of your application. If you do, your proposal will be declared inadmissible. You can include details of participants in the proposal Part A.' At the bottom of the form, it says 'This document ... [tags; they are needed for processing.] #@APP-FORM-HERIAIA1ST@# #@REL-EVA-RE@#'. A large 'x' is drawn over the entire red-bordered area of the proposal title field.

## HOW DOES LUMP SUM FUNDING WORK IN PRACTICE? A QUICK GUIDE

01

### LUMP SUM PROPOSALS

- Use the standard Horizon Europe proposal template. Address expected impacts and outcomes as in any Horizon proposal.
- No change in project design, except that work packages with a long duration may be split along the reporting periods. In this way, the relevant activities can be paid at the end of the reporting period.
- You need to provide a detailed breakdown of cost estimates to define and justify the lump sum. The estimates must be an approximation of your actual costs and meet the eligibility criteria of Horizon Europe. These cost details are needed to plan the budget of any proposal, even when they are not part of the proposal. The additional effort to include this information in a lump sum proposal should therefore be limited.

### Lump sum funding in Horizon Europe

- Opportunities
- Background

#### Guidance

Guidance on lump sum focuses on the limited number of aspects where lump sum funding differs from other grant types, and how it is paid. All the non-financial aspects remain the same as in actual cost grants.

#### Lump sum – what do I need to know?

*Exceptional page limits to proposals/applications*

In order to include a **business case and exploitation strategy**, the **page limit in part B** of the General Annexes is exceptionally **extended by 3 pages**.

# Business case and Exploitation strategy

## Business Case

- Target market
- Market size EU and globally
- User & Customer needs
- Matching at cost-effective manner
- Competitive advantage

## Exploitation strategy

- Obstacles and actions to reach higher TRLs
- TRLs 7 strategy for full-scale manufacturing in the EU
- matching value chains, enhancing product robustness; securing industrial integrators; and user acceptance

# Joint Research Centre, JRC\*

<i>Eligibility conditions</i>	The conditions are described in General Annex B. The following exceptions apply:  The Joint Research Centre (JRC) may participate as member of the consortium selected for funding.
-------------------------------	---

- Where provided for in the specific call conditions, applicants may include in their proposals the possible contribution of the JRC but **the JRC will not participate in the preparation and submission of the proposal.**
- Applicants will indicate the contribution that the JRC could bring to the project based on the scope of the topic text.
- After the evaluation process, the JRC and the consortium selected for funding may come to an agreement on the specific terms of the participation of the JRC.
- If an agreement is found, the JRC may accede to the grant agreement as **beneficiary requesting zero funding or participate as an associated partner** and would accede to the consortium as a member.
